## LEVITATION

### Essential Levitation - 20 Years Of Ibiza Chillout Music

Album Release: 24th february 2012 | Label: Whirlpool Records | Distribution: Intergroove

---

The share of love for music lasts longer than many marriages. 20 years is the period of **Chris Gilcher**, **Ingmar Hänsch** and **Marcell Meyer** unified as a team called **Levitation**. Affected by a distinctive style, they've been shaping a sound that has inspired a whole generation. **Chillout** is the musical genre, they had a big impact on-most of all with their contributions for the ground-breaking compilation-series **Café Del Mar**, above all „**More Than Ever People**“ feat. **Cathy Battistessa**.

For one part, „**Essential Levitation**“ is a collection of **20 tracks** on **2 CDs**, which presents the best achievements of the team in 20 years. For the other part, it is new material which **Levitation** has produced for this release over the past three years.

To escape the stereotype of lounge music as just another muzak, **Levitation** has always strived for high standards in songwriting and composition. The songs will certainly stand the test of time, featuring first-class vocalists such as **Mocci Ryen** (who worked with Patti Labelle among others). She gives a stunning performance on the advance single „**How Wonderful**“ and the trippy „**Circle Of Life**“ by adding a lascivious air to the tunes.

Another prime example of setting completative lyrics in a romantic context is **Caro Barth's** vocal input. In combination with a spanish guitar, her crystal-clear timbre is melting the ice on „**These Thoughts**“. By adding various singers to the tracks, **Levitation** accentuate the different colours of a warm prevailing mood. The music is characterised by an analogue sound which leaves the sterile productions of comparable approaches to the genre miles behind.

The soundtrack is generally **downtempo**. In order to a create a pleasant atmosphere, solid grooves lay the fundament for airy keyboardlayers, jazzy Rhodes-chords, or a guitar-picking. An exclusion to the norm is the instrumental „**Dabe Dabe**“, an uptempo instrumental with four-to-the floor rhythm that points in the direction of Underworld. This variation of style fits perfectly to the chilled vibes of the album.

As a surprise, the collection comprises also different unreleased mixes of classic material, such as „**More Than Ever People**“. The **third CD** is a bonus that features a **mix of DJ Sweep**, who is spinning the single tracks to become a liquid flow. „**Essential Levitation – 20 Years Of Ibiza Chillout**“ is a sample of the past and at the same time a look to the future. It certainly sets sails for a projects that has been pausing for some years and is now taking off to new shores ahead.
